

ROBBERS GET IT ALL
--OUT IN KANSASTHEY MERELY SHOW THEIR
GUNS;

Then Everybody Runs, and Fills the Hat With Cash; in Kansas—Train Held Up Near Sylvia—Ohio Bandits Turn Their Attention to Banks.

Puebla, Feb. 5.—The east bound Santa Fe train was robbed last night near Sylvia, Kansas. The passengers lost everything, but the robbers could not get into the express car.

Tucson, A. T., Feb. 5.—News has been received from the posse in pursuit of the daring bandits who held up the west bound overland last Wednesday near Wilcox. It is positively known, however, that they crossed the line into Mexico. When last heard from they were headed for the Tonto Basin country. If they ever reach that section of the territory the chances for their capture are small.

Toledo, O., Feb. 5.—Near 4 o'clock yesterday morning a terrific explosion awakened the people of the village of Milan, east of here. A hurried examination showed the Lockwood bank building had been blown up, the safe cracked and its contents, nearly \$30,000, taken by five masked men, who in blowing open the safe had demolished the building and started an alarm all over the village.

Among the many who investigated the explosion was L. L. Stoddard, cashier of the bank, and he was just in time to see five men leave the bank building, jump into a carriage and drive away on a gallop. He fired several shots at them, but without effect, and the men soon disappeared in the direction of Sandusky. A posse of men was hurriedly organized and soon followed in pursuit. At the same time notices were sent by wire in all directions and the news spread around the burglars so effectively that escape was well nigh impossible.

The exact amount of money secured cannot yet be ascertained, but it is believed to be about \$30,000. The bank is a wealthy concern, which fact doubtless was known by the men. The only error in their well laid plans was the heavy explosion which started the alarm.

THINK THEY HAVE THEM.

Two Supposed Robbers Arrested at Sandusky, Ohio.

Sandusky, O., Feb. 5.—The police of this city think they have two of the five men who blew up and robbed the Lockwood National Bank at Milan yesterday morning. In the afternoon they arrested at their homes in this city Gib Stoughton, a saloonkeeper, and Solly Hirschberg, the latter of no particular occupation. Stoughton and Hirschberg hired a rig from Rock & Hurd's livery stable here late Sunday night, saying they were going to Fremont. This rig partly was identified as the one in which the five bank robbers drove out of Milan after committing the robbery, and the fact that it was returned by Stoughton and Hirschberg this morning caused suspicion to be attached to them. None of the plunder was found on the prisoners. Nothing further has been heard as to the whereabouts of the other three cracksmen.

MILWAUKEE'S BRIDGE HORROR.

Blame For Yesterday's Accident Not Yet Definitely Fixed.

Milwaukee, Wis., Feb. 5.—Three persons were rushed to their death by the plunge of a Russell avenue trolley car through the open draw of Kinnickinnick avenue bridge at 8:30 o'clock yesterday morning. There were fourteen or perhaps fifteen people on the car when it went into the river. It is known positively that three were drowned. Eleven were saved. Ten of them had a terrible struggle in the car before they could be rescued.

It is generally believed the responsibility for the accident rests with Motorman John Kennedy, who was drowned, but this is stoutly denied by General Manager Wyman of the street railway company, who puts the blame on the bridge-tenders. He says they did not ring the bell or give any warning that they were about to open the bridge.

The dead:
EHLMAN, MISS ANTOINETTE G., kindergarten teacher and daughter of William A. Ehlman, director of music in the public schools.
KENNEDY JOHN, motorman of car No 145.

SCHMIDTKUNZ MRS. KATHERINE.

The rescued:
Alb, Miss Annie.
Brand, F.
Chase, B. W.
Hoffman, Edward.
Kuehn, H.
Gertel, A.

Peterson Andrew, conductor of the car.

Severy, W. P.
Vorstman, John H.

Wachholz, Ella, hurt about the shoulder.

Unknown man, jumped as the car plunged into the river, received a cut

over his eye, and ran away without giving his name.

The car was speeding to the south along Kinnickinnick av nue and when within twelve or fifteen feet of the bridge the passengers were startled by the conductor suddenly ringing the signal to stop. The rear door of the car was thrown open and some one shouted:

"Jump for your lives!"

At the sound of the bell the motorman, John Kennedy, grasped the brake crank and twisted it with all his power. But the wheels slipped. There was no time to reach for sand. The passengers realized with horror that no power on earth could prevent them from plunging headlong into the river. The women gave quick convulsive screams. The rear door was the only means of escape offered. The men on the rear end, two or three including the conductor, had already jumped. William P. Severy was the first to reach the door from the inside. He had occupied the front seat at the window and had seen the bridge open shortly after the railroad crossing had been passed. He was the first to bound forward and reach the handle of the rear door. The instant he touched it the forward end of the car went down and he and the terror-stricken passengers who were crowding behind him were thrown to the front.

A heavy crash followed as the ice was struck and then the car gradually sank midway into the water. The fire was instantly quenched and the passengers entirely submerged.

Then began the struggle for life. John Kennedy, the motorman, was killed when the car first struck the ice. In the struggle in the car Miss Ehlman and Mrs. Schmidt-kunz were drowned. When the car fell the occupants were all thrown to the forward end. The windows were broken and the water rushed in on them. The men began to fight their way to the top. Some climbed hand over hand along the edge of the seats; some walked on the shoulders of other struggling victims and held them down. Some swam to the surface. One woman clung to the neck of H. Kuehn and nearly drowned him as well as herself. Another clutched the arm of Edward Hoffman and pulled him back. It only lasted for a moment. William P. Severy swam to the top, put his hand through a window and a fireman caught him and dragged him on the ice. Ella Wacholz and Annie Alb succeeded in getting into the water among the floating cakes outside the car and were climbed along the edge of the car seat to the top and was dragged out by a fireman. The others were rescued in a similar manner.

The bodies of the victims were then taken from the wreck. The dead and the rescued were taken to the Marine Exchange, a small hotel in the neighborhood. The dead were laid on tables in a corner of the room.

Where the car fell there is eighteen feet of water, but fortunately there was about two feet of ice. The ice held the car partly above water and this fact alone made it possible to effect rescue.

The fire tug Foley was breaking the ice in the river at the time. It had whistled and the bridge was being opened to let it through. As soon as the firemen on the tug saw the car make its fatal plunge they jumped over the bow of the boat out upon the ice and ran to the rescue of the imprisoned passengers.

The street railway company is generally blamed for the accident, as it is asserted its employees do not pay much heed to the rule requiring them to stop before running on bridges. The car was taken from the river at night but no more bodies were found. The brakes were set tight and the insulation was burned out of the motor, which shows that the motorman reversed the current as well as set the brakes. The coroner's inquest will be held to-day.

They Will Invest in Coffee Lands.

Cordoba, Mex., Feb. 5.—A party of fifteen prominent bankers and business men of Kansas City and Topeka have arrived here for the purpose of investigating the coffee industry. They will go to the isthmus of Tehuantepec, where they will make extensive purchases of lands adapted to coffee culture.

Secretary Hoke Smith at Atlanta.

Atlanta, Ga., Feb. 5.—Secretary of the Interior Hoke Smith arrived here from Washington this morning and will spend several days in this city attending to private business. The secretary has leased a home in Athens, where his family will spend the summer.

Thirty Lives are Lost.

Paris, Feb. 5.—An explosion of fire damp is reported from Montceau les Mines, department of Saone et Loire. Thirty persons are believed to have been killed in the mine where the explosion took place.

Closed Its Sessions.

Atlanta, Ga., Feb. 5.—The National Woman's Suffrage convention came to a close to-day with a meeting at the Hotel Aragon of the executive committee and general officers.

Italian Ambassador Go to England.

Rome, Feb. 5.—Senator and General Annibale Ferrero has been appointed Italian ambassador to London in succession to Count Divergano.

LIVES AND PROPERTY

LOST IN THE FLAMES

THREE MEN CAUGHT IN A BURNING BUILDING.

Big Tobacco Warehouse in Cincinnati Destroyed and a Loss of Half a Million Dollars Suffered—Business Portion of Leipzig Destroyed This Morning.

Pittsburg, Feb. 5.—Two men were burned to death, and one seriously injured in a fire on Second avenue shortly after midnight this morning.

Cincinnati, Feb. 5.—The Brdman tobacco warehouse was burned this morning. The loss amounts to half a million dollars.

Leipzig, Ohio, Feb. 5.—The business portion of the city burned this morning. The loss is eighty-five thousand dollars.

Indianapolis, Feb. 5.—Fire destroyed the works of the Corde Implement company this morning. Seventy-five thousand dollars will hardly cover the loss.

THINK THEY ARE CONSERVATIVE.

Treasury Officials Concur in the Estimates Presented by Carlisle.

Washington, Feb. 5.—Treasury officials generally express the opinion that Secretary Carlisle's estimate of a surplus of \$22,500,000 for the calendar year 1895 is conservative. It is urged that the customs duty on sugar alone should bring in at least \$5,000,000 during the next eleven months and that the revenue from the income

tax is likely to reach \$40,000,000. The receipts from general customs and whisky withdrawals will materially increase from now on, which it is believed will bring the receipts for the twelve months up to about \$380,500,000. The disbursements for the year, it is thought, will not exceed \$351,000,000, leaving a surplus, after deducting the \$7,000,000 deficit for January, of \$22,500,000. The internal revenue officials, in figuring one the receipts from income taxation, estimate that the returns prior to July 1 will amount to \$10,000,000, and for the remaining six months \$30,000,000.

Yesterday's statement of the treasury shows: Available cash balance, \$144,412,174; gold reserve, \$12,645,730.

Senator Allen (Neb.) gave notice of a proposed amendment to the sundry civil appropriation bill for the coinage of all uncoined silver bullion owned by the government.

HAD NOT FULL POWERS.

Chinese Envoys Not Received by the Mikado.

Washington, Feb. 5.—An official dispatch has been received at the Japanese legation confirming the report that the Chinese peace envoys have been sent back to China by the Japanese because the envoys were not clothed with plenary powers by their government. It appears, in fact, that the envoys did not even have a proposition from China to make to the Japanese, but apparently came to find out in a general way what it was that the Japanese wanted as terms of peace.

No word whatever has been received up to noon regarding the reported capture of a part of the force of the United States steamship Concord.

Supreme Court Denies the Writ.

Washington, Feb. 5.—The Supreme Court of the United States yesterday denied the application of Elverton R. Chapman, the recalcitrant witness in the senate sugar trust investigation, for a writ of habeas corpus on the ground that it was not competent for the Supreme Court to interfere in the matter until after the case should have been finally disposed of by the district courts. All of the defendants will have to stand trial.

CHICORA NOT YET FOUND.

No Evidence to Confirm Report That the Boat Is Located.

Chicago, Feb. 5.—Not much more is known of the whereabouts of the missing steamer Chicora today than has been learned since the boat was reported lost on the lake. In fact there is nothing reliable to show that the steamer has been located, but plenty of rumors and visions of the wrecked vessel. What credence is placed in the rumors of yesterday by those supposed to be most interested is shown by the fact that up to noon at the Graham & Morton offices nothing had been heard from any of the towns to the south lying along the supposed route of the drifting hull, either confirming or denying the reality of the uncertain visions of yesterday. Not until after 11 o'clock did the tug Morford, secured by Clerk Hancock, who had hastened hither from St. Joseph, leave the Chicago river to plow its way south for one more search for the mysterious wanderer.

Gold Pins for Babies.

The gold buttons for babies' frocks have been largely replaced by sets of tiny gold pins, united, as the buttons were, by slender gold chains. Every mother will appreciate the value of this change. Six button holes were needed for the stud sets, and if a little gown tightened or loosened there was no adjustment possible. The pins do away with work, and permit all sorts of lapping over or letting out.

Care of Table Linen.

Before sending table linen to the wash it should be looked over, the thin places darned so as to prevent holes being made during the process of washing. Use fine linen thread for the purpose and a fine needle, and then the darning should hardly be visible on the right side. Table linen should never be darned in its return from the wash for this crumples it and renders it unfit for use.

ALL KINDS OF BILLS
BEFORE THE HOUSE

BOTH BRANCHES OF THE LEGISLATURE RECEIVING THEM.

New Measures Provide For the Removal of Church Exemption; Allowing Cities to Make Boulevards; Limiting a Day's Work; Uniform Text Books—Mortgage Regulation.

Madison, Feb. 5.—Several important bills were introduced today. Among them was a measure providing for the removal of all exemption of church property in the state which was introduced in the senate. Other bills were: all wing common councils of cities of the second and third class, to make streets boulevards and to prohibit heavy teaming on them; requiring all persons doing contract work for cities not to work their men more than eight hours a day, providing for a commission to secure uniform text books in the state and allowing the amount of all mortgages to be deducted from the assessed valuation of mortgaged property.

WAR CLAIMS BEATEN.

Hatch and Hall of Missouri, Engage in An Exciting Colloquy.

Washington, Feb. 5.—In the house yesterday after some unimportant business Mr. Catchings from the committee on rules introduced a special order for the consideration of the omnibus war claims bill. After some debate it was adopted. Under the rule fifteen minutes was then allowed on a side for debate. Mr. Dockery (dem. Mo.) was very earnest in his opposition to the bill. Mr. Sayres, chairman of the appropriation committee, also took a decided stand against the bill.

Mr. Reed closed for the opposition, contending that all classes of claims reported from the Court of Claims should be treated alike and an appropriation should be made, if the condition of the treasury warranted it, to be applied on all. Instead this bill proposed after a debate of an hour to pay claims of a certain class for a certain section. He submitted that this was unjust.

Mr. Catchings in reply deprecated the cry of sectionalism.

The vote of the adoption of the order was then taken, the result being 95 to 148, which defeated the adoption of the rule by a large majority and showed a pronounced reversal of sentiment since the vote on the previous question.

Mr. Outhwaite (dem., Ohio) then presented a special order from the committee on rules for the consideration of the new currency bill. The rule gave to-day and Wednesday until 3 o'clock for general debate and thereafter until 3:30 p. m. Thursday, when the vote should be taken for the consideration of the bill, under the five minute rule.

Mr. Outhwaite's assertion that the rule was satisfactory to all factions of the house aroused the ire of Mr. Hatch (dem., Mo.), who indignantly declared that it represented only the banking and currency committee and that committee represented only the banks.

Mr. Hall (dem., Mo.) resented this statement, denouncing it as "absolutely false."

Mr. Hatch grew exceedingly wrathful at Mr. Hall's remarks. He agreed to withdraw what he had said if the gentlemen could cite to him a single bill reported by the committee on banking and currency in the interests of the people. "I will say," he added, defiantly, turning to Mr. Hall, "that the gentleman's language is not such as he would dare to use to me off the floor of the house."

Instantly the house was in great confusion, and the members crowded about expecting a possible repetition of the row of Friday last, but the speaker ordered the sergeant-at-arms to see that the gentlemen were seated.

The incident went no further, as Mr. Outhwaite demanded the previous question, which was ordered. The rule was adopted, 135 to 28, after which the house went into committee of the whole and took up the agricultural appropriation bill. The bill was passed and the Hawaiian correspondence was laid before the house. Tuesday, Feb. 26, was set aside for eulogies on the life of the late Representative Post of Illinois.

Denver Man Burned to Death.

Denver, Colo., Feb. 5.—About 12:30 an explosion of gasoline set fire to the cigar store of A. L. Bowers, 1317 17th street, and burned to death the proprietor, who slept in a room in the rear of the store. Bowers was over sixty years of age.

JAPS TO CLOSE PECHILI
BULLET AND A TRAIN

Blockade of That Important Bony of Water Planned.

Tokio, Feb. 5.—The Japs will blockade the Gulf of Pechili. This move cuts off all communication with Tien Tsin, Ta Ku, Chee Foo, Shan Tung, Tsinan and Pekin. It seals up the mouth of the great Yellow river, the main artery of Chinese commerce, and strikes a severe blow at the nation's business.

COLDEST OF THE YEAR.

Thermometer in the Chicago Auditorium Thirteen Below Zero.

Chicago, Feb. 4.—Last night the temperature was frigid enough to break all records for the winter of 1894-95. The carefully made and delicately housed government thermometer registered 13 degrees below zero as the minimum temperature last night. Thermometers in the suburbs and outlying districts easily registered 13 below and had no compunctions in showing 16 and 18 below. However, the official temperature was 4 degrees colder than any former record of this winter. Previous to last night's clasp, the mercury had only crawled down to 9 below in the government instrument.

The intense cold has continued for twenty-four hours with no present hope for a rise in temperature. Suffering has been general and severe and the police expect to hear of many fatalities. Frozen limbs and ears are as plentiful as the proverbial birds about a morsel of food. One fatality has thus far been reported, while the list of seriously frozen is constantly increasing. The dead: M. Carmody, frozen to death at 132 West Eighteenth street. Seriously frozen: Martin Johnson, hands frozen, Alexian Brothers' hospital; James Brady, Halsted and Van Buren street, arms and feet badly frozen; Edward Burnside, Halsted and Madison, ears and hands frozen stiff, removed to county hospital.

CARLISLE'S NARROW ESCAPE.

Barely Misses Being Run Down While Going to the White House.

Washington, Feb. 5.—Secretary Carlisle narrowly escaped being knocked down by a reckless sleighing party while he was on his way to the White House to consult with the President about the financial question. The Secretary was walking along Pennsylvania avenue, and was just about to cross Executive avenue, which separates the Treasury from the White House grounds.

He looked solemn and oblivious of what was passing before him. Suddenly a high-stepping horse, drawing a cutter containing two young people, dashed across the street immediately in front of the Secretary. He was badly frightened, for he barely escaped being run over.

He fell backward toward the curb with a start that shook his hat from his head, and it was several seconds before he recovered sufficiently to remark that he had a very close call. A Treasury policeman glared indignantly at the rapidly disappearing sleighing party, and then escorted the Secretary across the street in safety.

FIRED ON BY STRIKERS.

Attempt to Prevent the Manager From Starting Glass Works.

Martin's Ferry, Ohio, Feb. 5.—As Alexander Humphrey, manager of the Buckeye Glass company, was starting the works this morning three shots were fired at him by four unknown union men, who had followed him. None of the shots took effect and the men escaped. There is a strike on at the works. Manager Humphrey and nine employees were arrested to-day charged by an officer of the Glass Workers' union with unlawfully assembling with loaded Winchester and preventing citizens from speaking with non-union men who arrived on the train to go to work in the mill. All furnished bail.

Southern Pacific Engineers Excited.

San Francisco, Cal., Feb. 5.—The Southern Pacific engineers are excited over the statement given out by one of their number yesterday that it was their intention to enter upon a strike in case their demands were not acceded to by the railroad company. Just what position they will assume in case of a refusal by the company to adjust the differences is as well guarded a secret as was ever shared by so large a body of men. Both Chief Arthur and Chairman Meyers of the engineers' committee deny that any strike is contemplated.

Fish Shipped From Tacoma to Boston.

Tacoma, Wash., Feb. 5.—Three cars of halibut, just in from Capt Flattery banks, have been shipped to Boston as a result of a recent fast shipment, when a car was sent through to the city in eight days. The fish are packed on ice and will go through to Chicago by passenger train.

Davis Will Case Again.

Boston, Feb. 5.—The famous Davis will case is again before Judge McKim, of the Suffolk county probate court to-day. The case is one in which the heirs of the late Andrew J. Davis of Montana are contesting for the estate, valued at \$7,000,000, of which \$1,000,000 is in Massachusetts.

Dan Shelby Is Dead.

Wilkesbarre, Pa., Feb. 5.—Daniel Shelby, manager of the music hall in this city, died suddenly of heart disease this morning, aged fifty-seven years. He was well known in the theatrical profession, having managed houses in New York, Buffalo and Chicago. During his residence in Buffalo he was an intimate friend of Grover Cleveland.

Denver Man Burned to Death.

Denver, Colo., Feb. 5.—About 12:30 an explosion of gasoline set fire to the cigar store of A. L. Bowers, 1317 17th street, and burned to death the proprietor, who slept in a room in the rear of the store. Bowers was over sixty years of age.

La Gasconne Is Overdue.

New York, Feb. 5.—The French line steamship La Gasconne, which sailed from Havre for this port, is more than one day overdue. She is a regular Sunday vessel and should have reached here long since.

BODY OF VICTIM IS FOUND.

Friedrichs Ernst's Remains Picked Up Near Lowestoft.

Lowestoft, Eng., Feb. 5.—The fishing smack Verena has landed here the body of Friedrichs Ernst of Magdeburg, Prussia, one of the drowned passengers of the Elbe, and some mail bags, one of which was marked Stockholm. The body of Ernst presented a shocking appearance with its hands clenched across the chest and the mouth wide open. The body was found forty-five miles southeast of this place.

BULLET AND A TRAIN
ENDED REISS' LIFE

DRAMATIC SUICIDE AT MANVILLE, WIS., THIS MORNING.

The Son of a Prominent Sheboygan Man Fired a Ball Into His Brain While Standing on the Track and a Train Cut Him to Pieces As He Fell.

Marshfield, Feb. 5.—While standing on the Wisconsin Central railroad track and with a freight train thundering toward him at the speed of thirty miles an hour, John Reiss fired a bullet into his brain at Manville this morning. As he fell the pilot of the engine struck him and an instant later his body had been torn asunder and his head cut off by the wheels. The parents of the dead man are prominent people of Sheboygan and no cause can be assigned for the suicide. The engineer of the train says he saw Reiss shoot himself just before the train struck him.

PORT WASHINGTON FIRM FAILS.

Mellinger, Fromm & Co., Are Forced to the Wall—Assets Small.

Port Washington, Feb. 5.—The firm of Mellinger, Fromm & Company made an assignment to-day. Their liabilities are about \$15,000 with assets of less than half that sum.

HERR MOST MUZZLED.

Speaks at Waterbury and Denounces Brooklyn Trolley Companies.

Waterbury, Conn., Feb. 5.—Herr Most of New York, addressed a crowd of three hundred in Turnverein Hall last night and arraigned the Brooklyn street railroad companies and their action in the trolley strike. The police had previously warned Most that they

would allow no anarchistic talk and he spoke in mild tones of denunciation of capital and government. The anarchists had previously engaged Concordia Hall for the rally, but the owners of the property, upon learning that Herr Most was to be the speaker, refused to rent the hall.

THREE KILLED, TEN INJURED.

Terrible Boiler Explosion at Elwood, R. I. Near Providence.

Providence, R. I., Feb. 5.—The boiler at Earl Carpenter & Sons' ice house at Mashpang Pond, Elwood, exploded to-day, killing two men outright, injuring a third so badly that he died within an hour and wounding ten others, some of them seriously. The names of the dead are: Patrick Hehr, John Hehr, Martin Deery, injured: William Morton, office boy; back and right arm broken and internal injuries; will die. Herbert Smith, injured about the head. Thomas Casey, internally, Charles Praston, slightly injured. Thomas Nelson, the engineer, blown through the building and scalded but not seriously injured. Martin Ryan, injured about the head. Henry Butler, colored, 37 Salem street, injured about the head. Phillip Lynch, right leg broken below the knee and injured about the head. Michael Tierney, scalded and injured about the head. George M. Darling, foreman; injured about the face.

SOUTHERN PINE TRUST.

Formed to Co-Operate With Those in Other States.

Atlanta, Ga., Feb. 4.—The facts have just leaked out about a secret meeting at the Hotel Aragon in this city on Thursday for the purpose of forming a syndicate. The Georgia-Alabama syndicate will co-operate with those already virtually in existence in Arkansas, Louisiana and Mississippi, and the result will be the formation of a trust which will control the southern pine lumber market. The mills represented include a majority of the southern plants turning out long leaf pine. The committees were formed to canvass for the organization in Alabama and Georgia. The Georgia committee consists of Messrs. Pope, Amoroux, Steele, Cheeves and Tift. The Alabama committee consists of Messrs. Kayl, Wagar, Hand, Partridge and Welch. These gentlemen are now at work on the proposed combine.

THE PINT OF WHISKY, A COMEDY IN 4 ACTS

STAR, WHITE-LIGHT BUDGET;
SUPPORT, THE CLUB.

Synopsis: Act I. The Dry Member—
Act II. The Idea [William at Work]
—Act III. [The Plot Thickens]
—Act IV. Realization [All's
Well That Ends Well.]

A comedy in four acts.
Dramatis personae.
Thomas Welsh, alias "Budget,"
Grand High Past President of the
White-Light club.
Proprietor of the wet goods foundry.

Members of the White-light club.
Scene one—A street corner. Cold
wind. Snow. No cheer. Mercury
10 below zero. Spirits of Welsh 15
below zero.

Welsh: (musingly) "I would that I
had a pint of whisky! Ah me! I
am cold. And I am sober. Yes,
and cold. How can I get me some
Ha! An idea striketh me! Cold tea?
The very thing! I will hit me home
and cook! Yes, will I even pump the
water with which I shall distill the
body from the succulent leaf. True
'tis work. Work I scorn. So do my
brother White-lighters; but what of
that? Yes, even will I strike the
match with which to light the fire.
That too, is work. That awful work!
How it haunts me! Yes, even with
the jail door! But drink! Yes,
verily will I do that much work for
pulse-starter, even though my fel-
lows expel me from our most worthy
order! Yes I will work that much
even though it killeth me!

Exit Budget

Act II.
Reappearance of "Budget."
"Ha! I have the requisite ammu-
nition. Great is the brain that circu-
lates 'neath the Scotch cap that Presi-
dent Cleveland wore before he sent it
to me by express! Life is not what it
seemeth! Truly did Mike O'Holihan
say 'There's many a slip 'twixt the
beer mug and the mug of the tarrier!'
Did I not work up from the position
of the Royal Rusher of the Impe-
rial Growler to the high
and exalted station of Grand Presi-
dent of the White-light Club. Did I
not graduate from the job of Chief
Tougher with the honor of making
more successful 'touches' than and
'feeler' that ever threaded over the
turnpike, avoiding successfully John
Hogan and Theo. Acheson and John
Kruse and all the other law-pushers?
Did I not graduate with honor from
the job of Chief Watcher of the Right
Royal Beer Keg? Am I not smooth?
Verily my friend, if thou hast con-
fidence in me, keep your eye on my
cigarette smoke. I've got a hen on!
I'm going to make her hatch. I
won't do a thing to that saloon
keeper!"

["Budget," clothed in suspicion-
killing smiles, the cast off pants of a

innocence enters the wet goods es-
tablishment. He plans to work a
sharp dodge on the barkeep and un-
less the latter watches him closely he
will do it as in the this case the bar-
keep always has an ear and a pocket
book open for the benefit of suffering
humanity. The door closes and the
second act is finished. Five minutes
intermission is here provided for, in
order that Budget may extend the
usual courtesies of the day, pass the
time thereof and speak of the severity

Budget—"Mr. Barkeep, have you a
stock of good whisky? Say me not
nay, as I would wet my whistle with
the best mountain dew in the land,
for I am sore athirst."

Barkeep—"I have."
Budget—"Put me then, I pray
thee, a pint in a bottle; and hold;
spare not the measure; the cork will
keep thee from filling the bottle too
full. I faint would get full myself.
Fear the not that less than a pint
would do the job; a quart has often
fallen short; for, prithee, good sir, no
one in the White light club ever rises
except he show the capacity to do
to others as he would have his friends
do them too, and hold a full quart."

Barkeep—"There you are."
Budget—"Pooketing the bottle) -
"Charge it to me and I'll pay next
week, for prithee, have I not \$8.95
coming for work on the ice?"

Barkeep—"Can't have it unless you
pay."
Budget—"With sorrow and abject
humiliation—"Take back thy liquor,
then. 'Tis hard to have thy word
doubted and to be deprived of whisky
that thou hast within thy hands."

(Hands back the bottle and leaves.)
Act IV.
Scene—Five Points.
Dramatis personae.
Members of the White-light club.
[F. S. Baines' warehouse, the C. & N.
W. depot and the old pickle factory in
the distance; time, 3:40 p. m.]

A member—"Prithee, good brother

Budget, how camest thee possessed of
a pint of such good whisky? Methinks
that better firewater never scorched
my tonsils and removed from my
mouth, the taste of Adam's Standard
smoking tobacco. I faint would drink
it all and eat the cork!"

All the members, (after drinking)—
"Yea, good brother Budget, what
magic didst thou use?"

Budget—"Magic? What word is this
that thou hurlest at me? Thinkest
thou that I practiceth the black or do
the Flint business? Naw! I don't
need to! See? I worked the
saloon keeper! I fixed up a pint of
cold tea in a bottle and put it in my
pocket. When the owner of the wet
goods foundry refused to trust me
and demand the return of his flagon,
I worked the shift on him; gave him
the bottle of tea of my own brewing
and kept the bottle of whisky? Great
is my intellect? Have I not a head
like a freight car?"

The members—"Verily, good
Brother Budget, thou art a genius.
Come thee to the pickle factory where
we have two hands of natural leaf and
a pint of benzine! Thou art hereby
crowned with the Imperial Tomato
can and hail we ye as chief!"

Exit all.
Curtain.

JESSE JAMES' RIFLE WAKES BELOIT UP

GUN WORTH \$2,000 COMES TO
THE SURFACE.

Now the People are Wondering What
the Game of the Man Who Made
the Offer Is—A Week at Milton—
Lima Center News—County Hap-
penings.

Either someone is trying to bam-
boozle Beloit shooters or else Jesse
James' old rifle is really worth \$2,000.

Some time ago Captain T. J. Rogers
of the Beloit militia company received
a letter from a man at Deaver de-
scribing the rifle that Jesse carried in
his career of lawlessness, and offering
\$2,000 for it. Captain Rogers ad-
vised the fact that he would pay \$200
for the weapon but got no reply.

The other day a stranger, who said he had
recently removed from Missouri to Be-
loir brought the gun to that place to
be repaired but refused to sell it. He
said that he gave one hundred bushels
of corn for it, buying it of a gang
known as former followers of Jesse
James and that Jesse had carved his
initials on it before his death. He
also said that he did not know that
the gun was of very great value. In
the meantime the Beloit men are won-
dering what the game of the Denver
man is for a telegram sent to him was
not answered.

HAPPENINGS UP IN MILTON.
Grain Trade a Bit Light—Cold Snap
Was Severe.

MILTON, Feb. 5.—Grain business was
rather light here last week. Carload
shipments include one each of corn,
oats, barley and tobacco. Four car
loads of coal, one of lumber and three
of ties were received. Mrs. J. B.
Tracy is improving slowly, but is still
a very sick woman. Mr. Tracy is
much better but does not get out yet.

Last Sunday a number of trains were
run over this division of the St. Paul
road, something unusual for this win-
ter. Candelmas day was bright
enough to enable the woodchuck to
see his shadow, therefore we are to be
in the cold soup for six weeks to
come. Frank Root left Monday for a
two weeks' trip in the interest of his
firm. He goes over the Northwestern
from Evansville to Baraboo, from
Madison to Prairie du Chien back to
Portage and then to Watertown, over
the St. Paul. Postmaster Morris and
wife were the guests of Janesville
friends Saturday evening. Messrs.
Summers and Swan of Juda, spent
Saturday and Sunday with Milton
friends. A. W. Crane had the misfor-
tune to cut two fingers of his right
hand, quite seriously Friday, with a
dried beef cutter. John P. Thompson,
of Janesville, visited last Friday at
Rev. E. D. Farnham's. It was from
fourteen to twenty degrees below
zero Saturday morning, ditto Mon-
day. W. A. McEwan visited friends at
Waupun last week. Mrs. J. C. Lane
of Milwaukee, has been the guest of
Milton relatives. Dr. Sutherland of
Janesville, was here Friday in
consultation with Dr. Cranall in
the case of Mrs. Tracy. M. T. Howard,
the Rice Lake merchant was the guest of Milton relatives
this week. The literary and
musical entertainment at the M. E.
church has been postponed one week,
to Wednesday, February 13, on
account of the indisposition of some
who take part. It is reported that
Alfred (New York) university will
receive \$150,000 from the estate of
Peter Wooden, Plainfield, N. J. He
also bequeathed several thousand dol-
lars to Seventh-day Baptist churches
in New Jersey. W. B. Wells, who is
teaching at summer came home Fri-
day sick. He expects to
be able to resume his
school work this week.

WEEK'S NEWS FROM LIMA CENTER
Revival Meetings Still Draw Well—Enter-
tainment Planned for Thursday.

LIMA CENTER, Feb. 5.—Notwith-
standing the cold weather last week
the services were well attended at the
United Brethren church, and will be
continued part of this week. After
this morning service will be at
half past ten instead of eleven.

Miss Nettie Barker left last
Friday for Baraboo to re-
main the rest of the winter.
Mrs. George Fuller and family visited
at Milton Junction last Friday at their
cousin's, Will Johnson's. Dr. Bennett,
of Brodhead, was called here last Fri-
day to see his niece, Ruby Bennett,
who is very sick with scarlet fever.

Mr. Freeman moved into his new house
last week, which he purchased some
time since. Mrs. Ora Glennan re-
turned from Chicago last Thursday.
All remember the entertainment next
Thursday evening at the hall, by the
Imperial band, of Albion. Admission
twenty cents to concert, and fifteen
cents to supper.

TIFFANY CREAMERY IS GROWING
New Thirty Horse Power Boiler Had to
Be Bought.

TIFFANY, Feb. 5.—The business of
Tiffany creamery has increased so
that it has been found necessary to
put in a new thirty horse power boiler.
The youngest son of George Dean
is quite sick. D. Q. Stark and wife have
been spending a few days in Chicago.
Joseph Hargart and son are again in
charge of the store after a few months
west. Our saw mill is doing consid-
erable business and is turning out
some fine lumber from all kinds of
hard wood. Our grain buyer is still
shipping considerable grain from here.

About 150 carloads have been shipped
from here since last fall. The cream-
ery company and the sawmill, each
got in a carload of coal last week.
Farmers around here are all busy
stripping tobacco now days.

ARE YOUR EYES WEAK?

Why So Many People Have Dim
Vision.

Great Danger of Weak Eyes Leading
to Total Blindness.

Some Facts About the Eyes Which
Many People Do Not Know.

Nothing in this world is so impor-
tant as our eye light. The very thought
of becoming blind sends a thrill of
horror through our souls. And yet
most everybody has more or less
weakness of the eyes. And they go
right on, day after day, straining and
abusing them, little thinking of the
fearful danger they incur of becoming
blind. For weak eyes may easily be-
come totally blind.

Hard work, tired nerves, bad blood
and run down systems weaken the
eyes. Following is the most wonder-
ful cure of blindness on record. Mrs.
Carrie I. Reed of Jay Bridge, Me.,
says:

"In January I began to fail. I was
all tired out and overworked. My
nerves became very weak, and I was
very nervous. Finally I began to lose
my eyesight, and I grew steadily
worse.

"I could not see to sew or knit, and
I could not see to do my housework
without the aid of glasses. I had to
wear them much of the time. My
eyes were in a very bad condition.
People told me I must go to an oculist
and have my eyes examined and
treated.

MRS. CARRIE I. REED.

I had heard of the wonderful cures
performed by Dr. Greene's Nervura
blood and nerve remedy, and deter-
mined to try it, and see what it would
do for me. I had not taken but half
a bottle before I was very much better.
I could see ever so much better, and
felt better every way. When I had
taken two bottles my eye sight was as
good and clear as it ever was, and I
always had the best of eye-sight until
this winter.

"In a short time I was entirely cured
of all my troubles by that wonderful
remedy, Dr. Greene's Nervura blood
and nerve remedy. It has done a
great thing for me. My eyes did not
look like eyes, they looked like blind
eyes, they were so red and inflamed
before being cured. It is a wonderful
cure, and it is a wonderful medicine.
I shall praise it far and near."

Here is additional danger for weak-
nerved, tired-out people. Don't ne-
glect those weak eyes, weak nerves
and run-down systems, but get well
by taking the great medicine, Dr.
Greene's Nervura blood and nerve
remedy.

Why waste time in trying uncertain
and untried remedies, when here is
a physician's prescription, a discovery
made by the greatest living specialist
in curing nervous and chronic diseases.
Dr. Greene, of 35 West 14th St., New
York City. If you take this medicine
you can consider yourself under Dr.
Greene's direct professional care, and
you consult him or write to him about
your case, freely and without charge.
This is a guarantee that this remedy
will cure, possessed by no other medi-
cine in the world.

Warranted Shoes.

We want to inform the public espe-
cially our customers that regardless of
what they have read we shall still
continue to warrant our shoes. It
has come to our knowledge that
several small factories have tried to
enforce an agreement that no goods
are hereafter to be warranted. Any
factory making strictly reliable shoes
would not hesitate to guarantee the
wear. We only buy the best.

Treasurer Rexford's report was as
follows:
Cash on hand February 5, 1895, \$4,251.87
Cash received from secretary to date, 62,822.00

Paid orders 1114 to 1204 inclusive..... \$1,991.01

Balance on hand in bank..... \$15,083.66
It was suggested that so large a
surplus as \$15,000 made it advisable
to retire some of the stock in the first
series. Under the by-laws this may
be done, the stockholders receiving
what they have paid in and 6 per
cent. interest. R. P. Young insisted
that this was virtually confiscation.
He thought stockholders should
receive the sum per share that was
scheduled as "present value," and
moved that the directors be so in-
structed. The matter was laid over
until next year.

The net profit during the associa-
tions eight years of life foots up
\$42,409.13.

REV. DR. TALMAGE'S
LATEST SERMON"OPPORTUNITY" THE SUBJECT
OF AN INTERESTING TALK."As We Have Therefore Opportunity
Let Us Do Good"—Gal. 6:10—A
Story of the Great Preacher's Boy-
hood Days—Life's Sublime Victory.

T DENVER, COLO., years ago, an audience had assembled for divine worship. The pastor of the church for whom I was to preach that night, interested in the seating of the people, stood in the pulpit looking from side to side, and when no more people could be crowded within the walls, he turned to me and said, with startling emphasis: "What an opportunity!" Immediately that word began to enlarge, and while a hymn was being sung, at every stanza the word "opportunity" swiftly and mightily unfolded, and while the opening prayer was being made, the word piled up into Alps and Himalayas of meaning, and spread out into other latitudes and longitudes of significance until it became hemispheric, and it still grew in altitude and circumference until it encircled other worlds, and swept out and on, and around until it was as big as eternity. Never since have I read or heard that word without being thrilled with its magnitude and momentum. Opportunity! Although in the text to some it may seem a mild and quiet note, in the great gospel harmony it is a staccato passage. It is one of the loveliest and awfulest words in our language of more than one hundred thousand words of English vocabulary. "As we have opportunity, let us do good."

What is an opportunity? The lexicographer would coolly tell you it is a conjunction of favorable circumstances for accomplishing a purpose; but words can not tell what it is. Take a thousand years to manufacture a definition, and you could not successfully describe it. Opportunity! The measuring rod with which the Angel of the Apocalypse measured heaven could not measure this pivotal word of my text. Stand on the edge of the precipice of all time and let down the fathoming line hand under hand, and lower down and lower down, and for a quintillion of years let it sink, and the lead will not strike bottom. Opportunity! But while I do not attempt to measure or define the word, I will, God helping me, take the responsibility of telling you something about opportunity.

First, it is very swift in its motions. Sometimes within one minute it starts from the throne of God, sweeps around the earth, and reascends the throne from which it started. Within less than sixty seconds it fulfilled its mission.

In the second place opportunity never comes back. Perhaps an opportunity very much like it may arrive, but that one never. Naturalists tell us of insects that are born, fulfill their mission, and expire in an hour; but many opportunities die so soon after they are born that their brevity of life is incalculable. What most amazes me is that opportunities do such overshadowing, far reaching and tremendous work in such short earthly allowance. You are a business man of large experience. The past eighteen months have been hard on business men. A young merchant at his wits' end came into your office, or your house, and you said, "Times are hard now, but better days will come. I have seen things as bad, or worse, but we got out, and we will get out of this. The brightest days that this country ever saw are yet to come." The young man to whom you said that was ready for suicide, or something worse, namely, a fraudulent turn to get out of his despairful position. Your hopefulness inspired him for all time, and thirty years after you are dead he will be reaping the advantage of your optimism. Your opportunity to do that one thing for that young man was not half as long as the time I have taken to rehearse it.

In yonder third gallery you sit, a man of the world, but you wish everybody well. While the clerks are standing round in your store, or the men in your factory are taking their noon spell, some one says, "Have you heard that one of our men has been converted at the revival meeting in the Methodist church?" While it is being talked over you say, "Well, I do not believe in revival. Those things do not last. People get excited and join the church, and are no better than they were before. I wish our men would keep away from those meetings." Do you know, oh, man, what you did in that minute of depreciation? There were two young men in that group who that night would have gone to those meetings and been saved for this world and the next, but you decided them not to go. They are social natures. They already drink more than is good for them, and are disposed to be wild. From the time they heard you say that they accelerated their steps on the downward road. In ten years they will be through with their dissipation, and pass into the great beyond. That little talk of yours decided their destiny for this world and the next. You had an opportunity that you misimproved, and how will you feel when you confront those two immortals in the last judgment and they tell you of that unfortunate talk of yours that flung them over the precipice? Oh, man of the world, why did you not say in that noon spell of conversation, "Good! I am glad that man has got religion. I wish I had it myself. Let us all go to-night. Come on; I will meet you at the church door at 8 o'clock." You see you would have

aken them all to heaven and you would have got there yourself. Lost opportunity.

The day I left our country home to look after myself, we rode across the country, and my father was driving. Of course I said nothing that implied how I felt. But there are hundreds of men here, who from their own experience knew how I felt. At such a time a young man may be hopeful, and even impatient, to get into the battle of life himself, but to leave the home where everything has been done for you; your father or older brothers taking your part when you were imposed on by larger boys; and your mother always around, when you got the cold, with mustard applications for the chest, or herb tea to make you sweat off the fever, and sweet mixtures in the cup by the bed to stop the cough, taking sometimes too much of it because it was pleasant to take; and then to go out with no one to stand between you and the world, gives one a choking sensation at the throat, and a homesickness before you have got three miles away from the old folks. There was on the day I spoke of a silence for a long while, and then my father began to tell how good the Lord had been to him, in sickness and in health, and when times of hardship came how Providence had always provided the means of livelihood for the large household; and he wound up by saying "De Witt, I have always found it safe to trust the Lord." My father has been dead thirty years, but in all the crises of my life—and there have been many of them—I have felt the mighty boost of that lesson in the farm wagon: "De Witt, I have always found it safe to trust the Lord." The fact was, my father saw that was his opportunity, and he improved it. This is one reason why I am an enthusiastic friend of all Young Men's Christian associations. They get hold of so many young men just arriving in the city, and while they are very impressionable, and it is the best opportunity. Why, how big the houses looked to us as we first entered the great city; and so many people! It seemed some meeting must have just closed to fill the streets in that way; and then the big placards announcing all styles of amusements, and so many of them on the same night, and every night, after our boyhood had been spent in regions where only once or twice in a whole year there had been an entertainment in school house or church. That is the opportunity. Start that innocent young man in the right direction. Six weeks after will be too late. Tell me what such a young man does with his first six weeks in a great city, and I will tell you what he will be through his life on earth, and where he will spend the ages of eternity. Opportunity!

A city missionary in the lower parts of the city found a young woman in wretchedness and sin. He said, "Why do you not go home?" She said, "They would not receive me at home." He said, "What is your father's name, and where does he live?" Having obtained the address and written to the father, the city missionary got a reply, on the outside of the letter the word "immediate" underlined. It was the heartiest possible invitation for the wanderer to come home. That was the city missionary's opportunity. And there are opportunities all about you, and on them written by the hand of the God who will bless you, and bless those whom you help, in capitals of light, the word "immediate."

A military officer very profane in his habits was going down into a mine at Cornwall, England, with a Christian miner, for many of those miners are Christians. The officer used profane language while in the cage going down. As they were coming up out of the mine the profane officer said, "If it be so far down to your work, how much farther would it be to the bottomless pit?" The Christian miner responded, "I do not know how far it is down to that place, but if this rope should break you would be there in a minute." It was the Christian miner's opportunity. Many years ago a clergyman was on a sloop on our Hudson river, and hearing a man utter a blasphemy, the clergyman said, "You have spoken against my best friend, Jesus Christ." Seven years after, this same clergyman was on his way to the general assembly of the Presbyterian church at Philadelphia, when a young minister addressed him and asked him if he was not on a sloop on the Hudson river seven years before? The reply was in the affirmative. "Well," said the young minister, "I was the man whom you corrected for uttering that oath. It led me to think and repent, and I am trying to atone somewhat for my early behavior. I am a preacher of the gospel, and a delegate to the general assembly." Seven years before on that Hudson river sloop was the clergyman's opportunity.

A Scotch shepherd was dying and had the pastor called in. The dying shepherd said to his wife, "Mary, please to go into the next room, for I want to see the minister alone." When

the two were alone the dying shepherd said, "I have known the Bible all my life, but I am going, and I am 'afereed to dee.'" Then the pastor quoted the Psalm, "The Lord is my Shepherd; I shall not want." "Yes, mon," said the shepherd, "I was familiar with that before you were born, but I am a-goin', and I am 'afereed to dee.'" Then said the pastor, "You know that Psalm says, 'Though I walk through the valley of the shadow of death, I will fear no evil.'" "Yes," said the dying shepherd, "I knew that before you were born, but it does not help me." Then said the pastor, "Don't you know that sometimes when you were driving the sheep down through the valleys and ravines there would be shadows all about you, while there was plenty of sunshine on the hills above? You are in the shadow now, but it is sunshine higher up." Then said the dying shepherd, "Ah! that is good. I never saw it that way before. All is well. 'Though I pass through the valley of the shadow of death, Thou art with me.' Shadows here, but sunshine above." So the dying shepherd got peace. Living and dying may we have the same peace! Opportunity! Under the arch of that splendid word let this multitude of my hearers pass into the pardon, and hope, and triumph of the gospel. Go by companies of a hundred each. Go by regiments of a thousand each. The aged leaning on a staff, the middle aged throwing off their burdens as they pass; and the young to have their present joys augmented by more glorious satisfactions. Forward into the kingdom! As soon as you pass the dividing line there will be shouting all up and down the heavens. The crowned immortals will look down and cheer. Jesus of the many scars will rejoice at the result of his earthly sacrifices. Departed saints will be gladdened that their prayers are answered. An order will be given for the spreading of a banquet at which you will be the honored guest. From the imperial gardens the wreaths will be twisted for your brow, and from the halls of eternal music the harpers will bring their harps, and the trumpeters their trumpets, and all up and down the amethystine stairways of the castles, and in all the rooms of the House of Many Mansions, it will be talked over with holy glee that this day while one plain man stood on the platform of this vast building giving the gospel call, an assemblage made up from all parts of the earth and piled up in these galleries, chose Christ as their portion, and started for Heaven as their everlasting home. Ring all the bells of Heaven at the tidings! Strike all the cymbals at the joy! Wave all the palm branches at the triumph! Victory! Victory!

Doubt About Insurance.

Insuring in a questionable company is like depositing in a shaky bank. Both concerns may pull through, but why take the risk? Read this list:

Royal Insurance Company	Net Surplus, \$2,186,842.
German American	Net Surplus, \$1,005,549.
New Hampshire Fire Insurance Company	Net Surplus, \$434,639.
Fraders' Insurance Company	Net Surplus, \$1,333,848.
Commercial Union Assurance Company	Net Surplus, \$338,883.
Northwestern National Insurance Company	Net Surplus, \$401,889.
Pennsylvania National Fire Insurance Company	Net Surplus, \$1,260,174.

All these Companies are Represented in my Office.
The figures quoted suggest Safety, Reliability and Ample Protection. These are points worth considering.

THIS DAY IN HISTORY

1722—John Witherspoon, "signer," born in Haddingtonshire, Scotland; died 1794.
 1725—James Otis, patriotic orator and writer, born at West Barnstable, Mass.; killed by lightning May 23, 1783.

1790—Death of Lewis Galvani, discoverer of galvanism. Galvani was an Italian, born at Bologna. He was a physician and physiologist and became professor of anatomy in the University of Bologna. The discovery of galvanism was accidental. Some frogs had been placed on his table near an electrical machine, and noticing the convulsion of their muscles by contact with metal he inferred the presence of electricity in the muscles and nerves of animals.

1852—Halmfrith, a factory village in Yorkshire, England, swept away by the bursting of a reservoir, 100 people perished.

1876—False alarm of fire in the Cincinnati Opera House resulted in the death of 11 people in the panic; 30 injured.

1887—The White River Junction disaster on the Boston and Montreal road; 2 sleepers containing 80 passengers hurled from a bridge and burned on the ice below. About 40 escaped death, but were seriously injured.

NO NEW STATES.

Democratic senators have decided that New Mexico, Oklahoma and Arizona are not to be given statehood. These three territories which democrats were so eager to admit a few years ago, went republican at the last election and there is every reason to expect that the dominant political settlement in them will continue to be republican for some time to come. If they were granted statehood by this congress they would be represented in the senate of the next congress, adding there can be no doubt, six to the republican membership of that body, thus placing the legislative branch of the government under republican control. Without this it is possible that a union of democrats and populists may control the senate in the Fifty-fourth congress. This is why the democratic senators say that the statehood bills cannot pass at this session. They do not want them passed and the probability is they will not be given further consideration, in which event New Mexico, Arizona and Oklahoma must remain in the territorial condition a year longer, as the penalty for having approved the policy and principles of the republican party.

ABOUT BONDS.

The constantly recurring wonder, in all this manifold discussion, is the extent of misinformation on the subject. Take the matter of bonds, for example. It has been stated over and over again to just what limit the power of the government to sell bonds extends. Now comes the Minneapolis Tribune, with editorial discussion of a report that the president is "peddling out," at 111, the old 4-1-2 per cent. bonds bought in and redeemed by Secretary Windom with the surplus. Here is a writer on a reputable paper who actually imagines that bonds which have been redeemed and canceled are not destroyed, but are held in a vault somewhere, and may be reissued at pleasure by the president. After this who can throw a stone at the vagaries of populists?

January's treasury deficit was about \$6,700,000, but February's is likely to be much smaller. Government expenditures, owing to the heavy payments for interest and pensions made in that month, are always much larger than those of the two succeeding months. Revenues, too, are increasing. Deficits will grow smaller hereafter, and will probably disappear in April.

The efforts of treasury officials to effect arrangements by which the next bond issue may be floated in bulk in the financial centers of Europe do not exactly confirm the joyous exclamation of the New York Herald that President Cleveland has committed himself by his recent message to its plan for a popular loan among the people of this country.

The string Tammany is pulling now is to insist that the republicans of New York are nothing but the serfs of Platt. But the difference between the republican party and Tammany is that the former has never trotted around in any man's collar.

British consols, which pay but 2 1/2 per cent interest, rose above par last December, and are now selling at about 105. If parliament were filled with silver lunatics it is needless to say that the quotations would be something quite different.

Were American Rifles.

San Francisco, Cal., Feb. 5.—The Winchester rifles carried by the Hawaiian rebels came, not from British Columbia, but from America. This report, which is confirmed, has caused much excitement at the state department here.

DUNN BROS.

For a Young Girl.

Girls getting along into the dignity of 15 and 16 years were sweetly gowned, for the most part, in brown or green, their ankle-long skirts temperately gored, and anyone of the bodies they wore in very good style for older women. One of the conspicuous grace had two broad box plaits running down from the shoulder over the bust, nearly converging at the waist line. The V shaped portion of the bodice, waist thus left open was filled in with a soft peach-colored silk, overlaid with dotted cream net. Her slipper gown, of clear green crepon, had pipings of dark green velvet let into the skirt seams. The body of the waist was made of a clear golden yellow silk, with full sleeves and a short square-cut jacket of crepon. Where the jacket fronts failed by four inches to meet over the bust a full butterfly jabot frilled out, and lace was intertwined in the high wrinkled collar of yellow silk.

Uses for Spools.

The number of pretty articles that can be made of empty spools is quite astonishing. The spools are strung on strong brass wire that is sufficiently pliable to readily conform to the desired shapes. Brackets, frames for screens, picture-frames, tables, book-racks, music-holders and numerous other articles can be made of the spools which are then treated to two or three coats of enamel. The design of screen will give our readers an idea of using the spools. The frame is composed of two long lengthwise wires bound together by crosswise ones, upon which spools of ordinary size have been strung. Inside this a smaller frame is placed, and the two are joined by large spools, strung on finer yet stronger wire. Patience and deft fingers are required to successfully manipulate the wire to give the desired effect, and they must be twisted firmly together at the points of intersection.

A Royal Trousseau.

The trousseau of the Princess Alix, who is now the bride of the czar of Russia, cost \$250,000, in addition to the one thousand blue and silver foxskins, miscellaneous furs of every description, precious stones by the quart, and yards upon yards of cloth of gold and cloth of silver, and as many more of priceless laces furnished to the manufacturer, a leading French house, by the Russian court.

It need hardly be said that one of the royal prerogatives is the opportunity to "cut," as the college boys say, going to the dressmaker to be fitted. A young woman of the precise figure of the princess was found to try on all her wonderful finery, and so precious were the articles furnished by the Russian court, that they were sent under seal, and as much real tape as if the fate of nations depended upon their arriving. Nor was this all. A representative of the court remained on the spot during all the preparations of the trousseau, to see that nothing was stolen by the work people, and that inferior articles were not substituted.

in Janesville. A few days ago we were earnestly urged by an important man to agree to a combination to hold up prices on certain classes of goods. Our reply is always the same to such overtures: "This house must make its own prices, irrespective of any other house in Janesville and we will not combine against the public."

We always work for a profit, but it is not how much we can get but how little we can afford. Not selling at cost there is no necessity to form leagues to raise prices, when any articles in which we deal are cut in price, for a motive as is sometimes the case, the prices are here instantly reduced in order to be consistent with our pledge that all our purchasers shall be protected at every point and to meet the guarantee that

Mr. and Mrs. S. C. Burnham enter-
tained their Sunday school classes at
their home on North bluff street last
evening in honor of Mrs. Burnham's
birthday. About twenty young ladies
partook of the hospitality, and after
supper had been served, a few hours
were very pleasantly spent listening
to an informal programme.

DR. C. F. TOLMAN of Chicago will
deliver the first lecture of the Mission-
ary extension course, under the aus-
pices of the Local Union of Christian
Endeavor and Epworth Leagues at the
Baptist Church Sunday School rooms
tomorrow evening. The lecture will
begin at 8 o'clock.

WHEN the mills shut down last
evening the water in the river below
the dam fell from six to eight inches
and at 7 o'clock the ice above Mil-
waukee street bridge broke away from
the banks and fell with a loud crash,
the concussion being noticeable on the
bridge.

MR. MURPHY is a pupil of some of
the most noted masters of Europe.
He will show what a simple ballad is

NO GERMS OF DEATH IN ROCK RIVER ICE

COUNTY SEWER DOES NOT
AFFECT THE CROP.

Prof. E. G. Smith of Beloit College,
Analyzes Four Samples Of Both
The Water and the Ice Taken
From Different Places and Finds
That They are All Alike.

There are no disease germs bottled
up in Janesville ice, and the new count-
y sewer is harmless.

So says Professor E. G. Smith, of
Beloit.

Professor Smith came to Janesville
about a week ago at the request of the
Ferris Ice Company, and got samples
of water from the river where the
Ferris Company cut their crop, and a
careful analysis followed. His reply,
giving the result of his investigation,
reached Janesville yesterday, and says
that he took water from four places.

The first sample was taken from the
river opposite Crystal Springs; the
second sample, three hundred feet be-
low the sewer; the third from a point
about midway between the sewer and
the railroad bridge; and the fourth
from the river in the rear of the ice
house.

The analysis Professor Smith states,
shows,

First. That the water in the river
carries a large amount of organic mat-
ter both in solution and suspen-
sion.

Second. That the waters are not
affected by any discharge from the
sewers. The sample taken just be-
low the sewer showed a little more
chlorine in the analysis and indicated
some sewage, but all evidence disap-
pears further down.

Ice Is All Right.

Samples of ice were taken from the
same points as the water and a piece
large enough to yield about a gallon
of water was analyzed.

The analysis showed some interest-
ing facts among them, being the fact
that freezing had removed all trace of
mineral matter; that all soluble ni-
trates had been rejected; that solu-
ble organic matter had not been en-
tirely rejected but had been re-
duced to a minimum; that there
was no more such matter in the ice
cut down the river than was found in
the samples cut above the sewer.

The amounts of organic matter found,
he continues, while small, is yet
rather more than he had expected to
find for the complete rejection of the
salts of the water. But is especially
worthy of note that the data are quite
the same in all samples.

"To sum up my conclusions regard-
ing the ice supply at Janesville as put
up this season, he says in closing it
seems to me the ice is of
good quality and not effected at all
by the sewerage and can be safely
used for all purposes for which Rock
river ice is adapted."

CHARTER REVISERS MEET TONIGHT

Committee Will Gather at the Council
Chamber This Evening

It is expected that every member of
the charter committee will be present
at the meeting in the council chamber
this evening, excepting Aldermen
Baines who is in the east. Aldermen
Smith and Winslow are in Chicago,
but they announced that they would
be present as soon as the train ar-
rived from Chicago this evening.

ANSON LOUDON DIED AT CHICAGO

Widely Known as a Musician Under the
Name "Frank Newhall"

Anson Loudon died in Chicago last
night, and his remains will be brought
here for burial, his brother-in-law,
Charles E. Church, going to Chicago
today to make arrangements.

Mr. Loudon was a brother of F. W.
James W. Mayhew V. Loudon and
Mrs. C. E. Church of this city, Janes-
ville being his home for many years.
Thirty years ago he joined a minstrel
company, taking the stage name of
"Frank Newhall," and since that time
he followed that profession. His
wife died several years ago. He leaves
no children.

Mrs. David Balch.

Sad news for J. H. Balch, book-
keeper in the Rock County National
bank, came over the telegraph wires
Sunday, it being the announcement of
the death of his mother, Mrs. David
Balch which occurred on Saturday.
Her death was hastened by a fall on
the ice which fractured one of her hips
the accident, combined with her ad-
vanced age, eighty-four years, being
the primary cause of her demise. Mr.
Balch's father is still alive, he being
ninety-one years old.

ASYLUM GOT \$8375 FROM STATE

Sum Exceeds That of 1893 by \$22,39—
Mr. Nye Handled Much Cash.

The Rock county insane asylum is
doing fairly well this year, even if the
times are hard.

In 1893 the institution received \$6,-
018.21 for the care of patients from
other counties. In 1894, \$8,357.30
was the income from this source, a
gain of \$2239.09. County Treasurer
McIntyre received the cash from the
state yesterday. The total amount
paid by the state to county asylums in
1893 was \$244,239.18 and in 1894
\$270,780.30. Besides the above sums
the state hospital at Madison cost
\$113,333.44 in 1893, and \$94,453.65 in
1894. The expenses of the North-
ern hospital were \$114,093.58 in 1893,
and \$121,636.52 in 1894. A total of
\$958,536.68 for the maintenance of
the insane for two years in a large
amount of money to spend, but there
does not seem to be any help for it,
as the number of unfortunates is con-
stantly increasing.

County Treasurer Nye handled
quite a sum of money yesterday in ad-
dition to the amount secured from the
state. The total amount, not taking
into account the local expenditures
aggregated \$24,985.14. He paid the
state Rock County's portion of state
tax, including the fines, penalties, suit
tax, and school district loans, which
amounted to the handsome sum of
\$16,627.84.

DR. SCOTT'S LECTURE AN ABLE ONE

First of the University Extension Course
Delivered Last Night

In spite of the intensely severe
weather over two hundred people
gathered in the lecture room of the
Court Street M. E. church last even-
ing to attend the first lecture of the
University Extension course. The ad-
dress by Dr. Scott, of Madison, was
very instructive and entertaining. The
doctor is a young man of exceptional
talent as a speaker, and he impresses
one as being the complete master of
his subject. His talk last evening
on "The Industrial Revolution" was a
most able presentation of the problems
that have confronted the world at dif-
ferent epochs, terminating with some
of the vital questions of our present
day which he will discuss in detail
during the five subsequent lectures.

The course promises to be one of the
best of its kind ever given from a
Janesville platform, and the Fort-
nightly club, under whose auspices
the course is given, is to be compli-
mented for furnishing a lecture course
of such merit.

BRIEF LOCAL NOTES.

W. P. BOLLES, of Bloomington, Ill.,
has leased the store in the Wilcox
block, adjoining the United States
express office and will open a first
class merchant tailoring establishment
March 1. Mr. Bolles is the leading
merchant tailor of Bloomington, where
he has been in business for twenty
years. The Janesville establishment
will be a branch of the Bloomington
house. Mr. Bolles will be remem-
bered as a resident of the Bower City
in the early seventies.

DR. H. E. WILCOX, of the Chicago
Eye Institute, a practical and scienti-
fic optician will be in Janesville to-
morrow to remain a few days and will
be pleased to meet all whose eye sight
may be defective. Come and have
your eyes examined free of charge.

ANYONE you can buy warm shoes
and slippers below what we are sell-
ing them for you are a dandy. Lis-
ten, we have laid out a 12 pair lot of
warm slippers at 50 cents for choice,
and a 60 pair bunch that have sold
from \$1 to \$1.50, go to close out at 75
cents for choice. We say we have an
overstock. Brown Bros. & Lincoln.

In addition to Smith's orchestra of
seven pieces the N. O. W. club has en-
gaged Si Plunketts full brass band
from Punksville for their seventh
annual private masque ball at the
armory tonight. "Chicago" and "Old
Rye" will also be there. Dancing will
commence at 9 o'clock sharp.

WE are just finishing up our invoic-
ing and we are really surprised. We
have enjoyed one of the most prosper-
ous years of our existence, and the
coming year we will use our best ef-
forts to increase our already large
business. Low prices will do it. Bort,
Bailey & Co.

THE Fair, department store has re-
moved from Milwaukee and River
streets to 103 West Milwaukee street,
and are selling many articles at cost
for a short time.

BORT, Bailey & Co. purchased the
Clark stock of dry goods at Beloit and
opened it for sale yesterday morning.
During the day they sold \$1,300 worth
of dry goods.

TO TRY ANTI-TOXINE SOON AS POSSIBLE

SUPPLY HERE TO BE USED ON
THE FIRST CASE.

Next Diphtheria Patient Can Has the
Benefit of the New Remedy—Very
Effective In a Recent Case—Dr.
T. F. McKey's Long Cold Ride In
a Blizzard.

The next case of diphtheria in
Janesville can and probably
will be treated with anti-toxine.
W. T. Sherer & Co. received this
morning, a limited quantity of the
new diphtheria remedy, and it will be
used by Dr. J. M. Pember on the first
opportunity offered. The remedy is
not as expensive as at first reported,
although it costs a little more per
dram than the old remedies, but it is
within the reach of all, even the
board of health. It is now claimed
that the remedy can be had in
limited quantities on twenty-four
hours' notice.

The remedy was tried when little
Geraldine McKey Smith, niece of
George M. McKey, was sick at White-
water, and broke up the diphtheria.
Lung fever followed, however, and
the child died. The death of little
Geraldine gave Dr. Thomas F. McKey
along cold ride of inexpressible sad-
ness. The Smith home was under
strict quarantine and the authorities
would not allow any member of the
household to leave the house.

They desired that the child
be interred in the Janesville
cemetery but the rail-
road company was not allowed to
carry the remains for fear of the con-
tagion. There was but one thing to
do, and Dr. McKey volunteered to
take the little body in a sleigh and
drive to Janesville. The distance is
called twenty-one miles and every
inch of it in the face of a howling bliz-
zard. Dr. McKey reached Janesville
at 3:30 in the evening, after a very
trying journey and interred the little
one in Oak Hill that night with his
own hands after which he
drove back home.

CHARTER COMMITTEE DIDN'T MEET

No Quorum Last Night But They Will
Convene This Evening.

The committee appointed by the
mayor to revise the city charter did
not meet last evening. At the ap-
pointed hour only Aldermen Winslow,
Smith and Kothman, and Citizens C.
C. McLean and O. F. Nowlan and City
Attorney McElroy put in an appear-
ance, consequently the meeting was
adjourned until 8 o'clock this evening
at the council chamber. Dr. Henry
Palmer was called from the city, and
other members of the committee were
compelled to attend the annual meet-
ing of the Building, Loan and Savings
association. It is expected all mem-
bers will be present this evening.

Members of the board of education
failed to attend the regular meeting
of that body last evening, conse-
quently the minority adjourned for
want of a quorum.

MONDAY NIGHT.

SOME WELL KNOWN FACES

A Warrior's Wife.

Considering the high military rank of her distinguished husband, Mrs. Nelson A. Miles is comparatively unknown to the public, although she is leader in the society in which she moves. She was a Miss Sherman, married General W. T. Sherman, and married General (then Colonel) Miles.

MRS. NELSON A. MILES.

1866 During the early married life of the couple General Miles was busily engaged in fighting Indians throughout the west, and as Mrs. Miles kept as near him as possible during his various campaigns against the hostile Sioux, Cheyennes, Kiowas, Apaches and Comanches she saw a great deal of the horrors and privations of frontier warfare. Two children, a boy and a girl, blessed their union, and the boy is named Sherman Miles.

ant soldiers for 38 years. He was born in Ohio 60 years ago and was graduated from West Point at the age of 22. He served with distinction during the war and has since displayed great skill and courage as an Indian fighter.

Canada's New Premier.

Hon. Mackenzie Bowell, the new premier of Canada, points with pride to the time when he was a printer's devil in a newspaper office at Belleville, Ont.

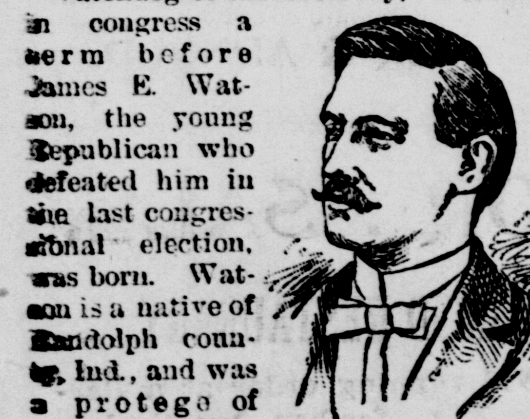

MACKENZIE BOWELL.

He was born in Pickinghall, Suffolk, England, 71 years ago and came to America nine years later. He has been in parliament since 1867 and was the senior member of the late Sir John Thompson's cabinet. He is a prominent Orangeman and has been very enterprising and successful in business. In politics he is a Conservative and protectionist.

Watchdog Holman's Successor.

Hon. William S. Holman, the famous "Watchdog of the Treasury," had been in congress a term before

James E. Watson, the young Republican who defeated him in the last congressional election, was born. Watson is a native of Randolph county, Ind., and was a protégé of General Tom Browne, a famous Republican warhorse. He has been active in politics ever since he became a voter and has achieved local fame as a stump speaker.

State of Wisconsin, county of Rock, s. Jan. 16, 1895. To whom it may concern. I hereby give notice that I intend to make application to the circuit court for the county of Rock on the first day of the January term to be held in the court room in the city of Janesville on the 28th January 1895, at 10 o'clock a. m. of that day or as soon thereafter as the same can be heard for a judgment against the several lots, lands, pieces and parcels of lands described in a report there and then to be made and filed with the clerk of said court for the unpaid special taxes for paving East and West Milwaukee, streets levied by the common council of the city of Janesville in the year 1894, and all persons interested therein are requested to attend such term of said court and offer their defense, if any they may have, to such application.

Treas. City of Janesville.

Poor Indeed!

The prospect of relief from drastic cathartics for persons troubled with constipation is poor indeed. True they act upon the bowels, but this they do with violence, and their operation tends to weaken the intestines, and is prejudicial to the stomach. Hostetter's Stomach Bitters is an effective laxative, but it neither grips nor enfeebles. Furthermore, it promotes digestion and a regular action of the liver and the kidneys. It is an efficient barrier against and remedy for malarial complaints and rheumatism, and is of great benefit to the weak, nervous and aged. As a medicinal stimulant it cannot be surpassed. Physicians cordially recommend it, and its professional endorsement is fully borne out by popular experience. Appetite and sleep are both improved by this agreeable lavigator and alternative.

If the Baby is Cutting Teeth,

Be sure and use that old and welltried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, always all pain, cures wind, colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and were positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she had taken only three bottles of Nerveine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone. She attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and money could procure for our daughter the health Dr. Miles' Nerveine has brought her.

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. L. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nerveine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., receipt of price, \$1 per bottle, six bottles for express prepaid. It is positively free from opiates or dangerous drugs.

"All in a Row."

It is a unique sight to view at Carlsbad the motley row of drinkers of all nations, languages, manners and costumes hurrying down in single file to the boiling Sprudel Spring with an earthenware mug in their hands, or slung by a strap round the neck or over the shoulder, and patiently waiting their turn to sip of the precious fluid. For three centuries or more, all sorts and conditions of men, from the king to the tramp have pilgrimized hither in search of new life or relief from pain. But we cannot in these competitive days afford the time and money to travel so far afield, so it is brought to your doors bottled in its natural and original form at the Spring, or in powder evaporated on the spot, and so well known as the Carlsbad Sprudel Water, and Carlsbad Sprudel Salt. The signature, "EISNER & MENDELSON Co., Sole Agents, New York," is on every bottle. Beware of imitations.

FOR SALE.

One of the finest and most beautiful tracts of land in the west, a 1240-acre farm in Macon county, Mo., three miles from the Wabash and ten from the Hannibal & St. Joe railroads; churches and schools close at hand, rich, black soil, equal to the best in Rock county. This farm lies in the Great Blue Grass region of Northeastern Missouri, 50 miles west of Quincy, Ill., a region unequalled as to climate, soil, grasses, water, timber, fruits and other countless natural advantages as a farming, stock and fruit raising country. Five sets of good buildings on the farm. Will sell part or all at \$30 per acre.

LOOKING BACKWARD

over the past two months, the time since we moved into our new store, we cannot help feeling proud of the grand record we have made. Our December and January business has been by far the largest in our history. We believe that we have fully convinced the public of Janesville and surrounding country that there is one place where business is done "on the square." Where they get goods as advertised every time; where straight-forward business principles prevail and where lowest prices for reliable goods only are asked.

We have demonstrated to the people that we are willing to make the lowest prices on Dry Goods ever made in this city. Now we shall also show you that we will have the finest line of Dry Goods ever opened in the city, and we are going to keep right on increasing our business if low prices and good merchandise will do it. Come in and let us show you our

WHO KILLED COCK ROBIN?

WHO KILLED THE TRADE?

—NOT I SAYS—

BROWN, BROS. & LINCOLN.

The story is going the round of the local setter's union that those people who are making this noise are killing the trade. You don't believe it do you. When you want a pair of Shoes for yourself or the wife, a pair for the children, do you go over to old Calf Skin & Co., who never spend a dollar to advertise. Not much, you go straight to some live concern that believes in letting their light shine. Again old Calfskin might snap your head off if you said a word. He is in bad humor these days.

People are buying shoes, clothing, dry goods in our city who have never traded here before. What brought them here? More goods are being sold than ever before. What brought it here. We deny the charge we are trade winners. We name the lowest price. We sell the best the market affords. We are no relation to old Calfskin & Co. We are selling shoes.
